# Getting Started with AWS Projects

Shravya

Why AWS?

To understand the developing and using modern applications for the serving the millions of users who are benefitting with the pay-as-you-go

My Project Goals

I'm challenging myself to complete 10 projects in 5 days.

You might be wondering… what's AWS?

AWS is the first cloud services company offering users to deliver their applications world-wide without concerned about the scalability, elasticity and security of the resources required for their application
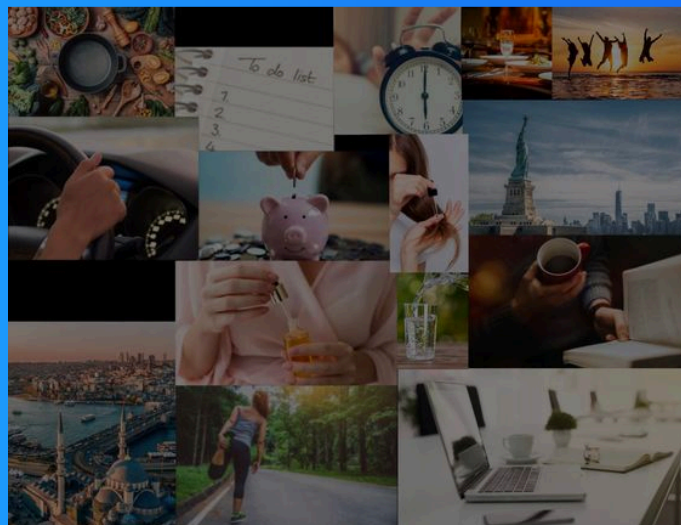

How I'll reach my goals

giving myself a small rewards like chocolates or movie-time

Adjusting 30 mins everyday for this

read non-technical books and play jigsaw puzzles

Excited to share my progress! Let's connect.
